

Case Study

Revenue management tool for a holiday rental provider

www.simon-kucher.com/engine

Revenue management tool for a holiday rental provider

Context

Client: UK holiday rental provider

Two-sided market: owner & customer

Objectives:

- Develop a dynamic pricing system with a daily forecast that reflects the unique elements of the client's business and ecosystem
- Help the client grow revenues and profits as part of a data-driven and employee/owner/customer-centric strategy

Approach

- Developed a customized revenue management system that forecasts relevant clusters of demand (geography/type of property/week) to make price recommendations
- Adjusted recommendations to reflect property velocity (fast from slow sellers)
- Optimized prices to maximize EBITDA while ensuring achieved occupancy doesn't jeopardize owner retention
- Developed and delivered a custom tool that the client could implement, own, and enhance

Deliverables

Forecast at aggregate level to make price action

Differentiate price action by sales velocity

Optimize ebitda within boundaries

Fully customized revenue management system that recommends **profit-optimal prices** based on daily demand forecasts... leading to a **+22% increase in revenue** per property!

Simon-Kucher Engine combines over thirty-five years of unique monetization expertise with proven digital solutions that fit to you.
